ABOUT THE AUSTRALIA PODCAST RANKER

The Australian Podcast Ranker lists the Top 100 podcasts from participating publishers that are consumed by listeners located in Australia.

The All-Australian Top 100 Category Ranker lists only the Top 100 podcasts commissioned by an Australian publisher, consumed by listeners located in Australia.

The Australian Publisher Ranker ranks the top 10 participating publishers in Australia, consumed by listeners located in Australia.

There is potential to add further data by publisher and program in the future. Additional publishers are expected.

ABOUT THE METHODOLOGY

The Australian Podcast Ranker is based on a monthly reporting period. The entities listed are ranked by Monthly Downloads in accordance with the latest IAB Podcast Technical Measurement Guidelines.

Downloads are defined as unique file requests that were downloaded. This includes complete file downloads, progressive downloads, as well as partial downloads in accordance with the IAB Podcast Measurement Technical Guidelines v2.0 filtering rules (i.e. spiders and bots, data centers, one-minute of content minimum download, etc.). "Unique" filters multiple requests from the same IP address, user agent, episode, and date.

Note: "New" in the Rank Change column indicates that the show is new to the report this reporting period, either entirely (i.e. making its debut for the first time), or, returning to the report after having not appeared in the last reporting period.

Number of Active Podcasts is a count of all podcast titles which had at least one qualified download during the reporting period.

Note: As of 1 October, 2020, Apple Watch downloads have been removed from measurement per updated guidelines from the IAB Tech Lab. This change had approximately 2% impact on reducing total downloads in Australia.
